pmsbazaar PMS Ranking

JUN -22

Indian market is witnessing sustainable growth, with lesser co-relation to global downturns. With the growing UHNI population, alternative investments are expanding exponentially. When it comes to Portfolio Management Services, the industry grew 23.2 percent on a year-on-year basis with assets growing from Rs 3.97* lakh crore to Rs 4.89* lakh crore (*Excluding EPFO & non-EPFO). In the next three years, PMS Industry is expected to grow 2.5 times, according to our recent research report.

In this growing PMS space, PMS Bazaar is undertaking an exclusive Ranking exercise to assess & rank the PMS Strategies with the computation powered by CRISIL. This Edition of our Exclusive PMS Bazaar PMS Ranking will evaluate PMS Strategies for the quarter that ended in June 2022.

This ranking is prepared based on information received by PMS Bazaar from respective fund houses. PMS Bazaar compiles the data & prepares the ranking with the stringent filtration & comprehensive computation of CRISIL.

CRISIL uses rigorous criteria to pre-select the PMS ranking universe. To be eligible strategies should go through the following screens

- The Strategy must have 3 years of performance history (daily NAV data)
- Past three months portfolio should be available
- Asset size should be a minimum of 10 crore rupees

After going through the first stage of the screener, there are four edge parameters to evaluate

Mean Returns - Mean return is the average of daily returns based on the scheme's NAV for the period under analysis.

Volatility - Volatility is the standard deviation of the mean returns. The period of analysis is broken into four overlapping periods (latest 36, 27, 18 and 9 months for three-year period. Each period is assigned a progressive weight starting from the longest period as follows: 32.5%, 27.5%, 22.5% and 17.5%, respectively.

Portfolio Concentration Analysis - Concentration measures the risk arising out of improper diversification. For equity securities, diversity score is used as the parameter to measure industry as well as company concentration.

Liquidity Analysis - This measures the ease with which a portfolio can be liquidated. The lower the score, the better the liquidity of the portfolio.

Once the data is generated for each eligible PMS strategy, parametric weights are assigned.

Parametric Weights	
Category	Equity PMS Schemes
Mean Return (%)	55
Volatility (%)	25
Company Concentration (%)	5
Industry Concentration (%)	10
Liquidity (%)	5
Time Period	3 years

The number of qualified Portfolio managers is 60, and the number of qualified strategies is 102. In the previous ranking, there were 55 portfolio managers with 87 strategies, we are happy to see our PMS universe is growing every quarter. Investor can access the pervious CRISIL ranking by clicking [\(Download\)](#)

PMS RANKING SNAPSHOT

For the quarter ending June 30, 2022

PMS Bazaar PMS Ranking - Computation Powered by CRISIL

Total No. Of Portfolio Managers Participated	63
Total No. Of Strategies Participated	107
Total No. Of Portfolio Managers Qualified	60
Total No. Of Strategies Qualified	102

CRISIL DISCLAIMER

About CRISIL Limited

CRISIL is a leading, agile and innovative global analytics company driven by its mission of making markets function better. CRISIL, its subsidiaries and associates, provide ratings, gradings, data, research, analytics and solutions, infrastructure advisory, and benchmarking services to its clients. Details of the services provided by CRISIL are available at <https://crisil.com/>. It is majority owned by S&P Global Inc (SPGI), a leading provider of transparent and independent ratings, benchmarks, analytics, and data to the capital and commodity markets worldwide. Details of the services provided by SPGI are available at https://www.standardandpoors.com/en_US/web/guest/home

About CRISIL Research

CRISIL Research, a division of CRISIL, is India's largest independent integrated research house and is registered as a Research Analyst with SEBI (Registration No INH000007854). We provide insights, opinions, analysis, and data on the Indian economy, industry, capital markets, and companies. We also conduct executive training programs, predominantly in the area of credit and risk management. We are India's one of the most credible providers of economy and industry research. Our analysis is supported by inputs from our large network of sources, including industry experts, industry associations, and trade channels. We play a key role in India's fixed income markets, being the largest provider of valuation of fixed income securities to the mutual fund, insurance, and banking sector in the country. We are also a prominent provider of debt and hybrid indices to India's mutual fund and life insurance industries as benchmarks for performance assessment.

CRISIL Research also undertakes Equity and Debt valuation, publishes Mutual Fund Ranking for mutual fund schemes (across equity, debt, and hybrid asset classes), and provides Portfolio Analytics for Institutional Investors, which involves deep analysis of portfolios for corporates, pension funds, and provident funds at an asset class level. Our platform for wealth managers, Alphatrax, offers an in-depth analysis of performance and portfolio-based attributes for diverse asset classes. It also enables investors to assess industry and company-level risks based on CRISIL's proprietary models. We also provide Equity Support services to the domestic market intermediaries that use our research reports to assist their clients in making investment decisions in relation to listed or to be listed securities in India.

Quantix, our integrated data and analytics platform, finds use in diverse functions across the financial sector, corporates, and consulting firms including business strategy, deal/ loan origination, credit underwriting, risk monitoring, and treasury/ investment management.

Our Company reports (that combine select financial and non-financial data, analytics from our proprietary risk models, and commentary on the company's financial performance) are used by large commercial banks and financial institutions as part of their credit/ risk management process.

Our SME Performance Gradings, used by lenders, assess the creditworthiness of SME enterprises relative to the peers leveraging our proprietary grading model. The framework includes an assessment of entity-level financial and operating performance, as well as industry-level drivers.

Our defining trait is the ability to convert information and data into expert judgments and analytics with utmost objectivity. We leverage our deep understanding of the macro-economy and our extensive sector coverage to provide unique insights on micro-macro and cross-sectoral linkages.

Our talent pool comprises of economists, sector experts, company analysts, and information management specialists.

CRISIL Privacy
